

Text messaging updates! We have a texting service here at Immanuel. If you would like to sign up for a few of our lists please do so by filling out this form. Normal texting rates apply. Also keep in mind two things, at any time you may reply back the word "stop" and it will automatically take you off the list. The other thing is that this texting service is a computer database. You may send messages back but they will not be replied to immediately. This service is used mainly for information not conversation texts.

We are also trying to set up newsletters through email to better communicate with youth and families. If you would like to receive email updates please give us your email address(es).
