**IMMANUEL LUTHERAN SCHOOL'S INNOVATIVE TECHNOLOGY PROGRAM MADE POSSIBLE IN PART BY THE SIEBERT LUTHERAN FOUNDATION**

**BROOKFIELD, WI** – Immanuel Lutheran School applied for and was awarded a grant from the Siebert Lutheran Foundation, a private independent foundation based in Milwaukee, Wisconsin, for the Immanuel Lutheran School Innovative Technology Program. The Program's purpose is to incorporate 21<sup>st</sup> Century technology into the classrooms. \$40,000 of the \$80,000 program costs will be expended through the grant.

Immanuel Lutheran School will use the funds to purchase SMART interactive panels for all classrooms, 3K through 8<sup>th</sup> grade. This will allow students to continue learning at their level with technology engagement. Over 400 students and community members will benefit from this blessing from the Siebert Lutheran Foundation every day.

"This year emphasized the importance of technology and what a powerful tool it can be for personalized learning," said Ms. Charlotte John-Gomez, Siebert Lutheran Foundation's President. "Siebert's Directors recognize how valuable the SMART interactive panels are for Immanuel's students and as the school continues to grow, we are confident that this technology will be maximized to serve the school's diverse student body."

Mr. AJ Amling, the Principal of Immanuel Lutheran School said, "I am excited to see the students' level of engagement through technology grow in their academics. This will prepare them to be life-long learners and contributing citizens of our community."

Immanuel Lutheran School is a private school, located approximately one mile west of the North side of Milwaukee. 395 students attend Immanuel, 3K through 8<sup>th</sup> grade. Immanuel has been providing excellence in education for over 100 years and has an outstanding reputation in the community.

For more information about Immanuel Lutheran School, please contact Mr. AJ Amling at 262-781-7140.
